

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

April 9, 1997

LR 5

all the same to you, could we have just a little less noise and a little more light? But at any rate, what Senator "Bud" Robinson was suggesting about my not coming here indicates that he had not listened. I had stated that if I'm in a situation where I'd have to be sworn in, and I added sworn in by the judge who may have to miss a fishing trip to deal with the fish of the Legislature, then I would be here, but I wouldn't stay around here piddling and wasting that time as the Legislature is certainly going to waste it. I know what the Legislature's about, and I know what the Legislature's going to do, and I'm trying to rescue you from yourselves, but you insist on running headlong into the abyss. And as you tumble into a pit which seems to have no bottom, you'll be asking, what in the world brought me here? You brought yourself there. Nothing is going to be gained by this if it's passed. If the public rejects it, it doesn't matter whether they reject it by one vote, a thousand votes, or 50,000 votes. It will have been rejected. But then it'll come back again, because it seems, in the minds of some people...I can't read those minds, so I don't know what in the world their rationale is despite what they've said on the floor. In the minds of some people, this is going to revolutionize our process. It's going to cause everything that people have a grievance about to be resolved, and we'll live happily ever after, and Senator Tyson, for the Legislature, the millennium will have arrived. This is the millennium bill. This cures everything. This is better than Hadacol. This is better than mahuang or mahuang or whatever the herb is that takes care of everything. People who are old, Senator Robinson, older than you and I, got a shot of mahuang and they're running around toddling. They shrunk and became young again. People who had lost their memory took a shot of "ma" and all of a sudden they remembered things that they never even knew. That's the kind of amendment this is. It will cause people to say, what I'd like to do is find a place where no human being has ever trod before so I can follow the footsteps of those who went before me. Crazy stuff. Doesn't even make sense. But you give them what they want. You give them what they want. This is why, when you all ask prayers, the answer's always no.

PRESIDENT ROBAK: One minute.

SENATOR CHAMBERS: No. You don't know what you're asking for.
